HOT INK CODER

Applications:

Ink roll coding machine is suitable for all kinds of product to automatic print production date lot/ batch number, Bar code, QR code & other related information.

- Print Area:
- Axial 40mm Radial 40.5mm

- Printing Lines:
- Vibratory Feeder

- Type:
- T-type 1.5, 2.0, 2.5, 3.0mm(W)*3.5mm(H)
- R-type 3.5mm(W)*3.5, 4.5, 5.5mm(H)

- Surface Speed:
- Up to 40 meters / minute

- Ink Roll:
- 36*40 mm

CODER SERIES

TTP-03

THERMAL TRANSFER PRINTER

Applications:

Thermal Transfer is used in intermittent and continuous Package Machines and Labeling machines to Print Barcode, QR code, logos, images, Variable data, Tables, nutrition lists, serial numbers, etc.

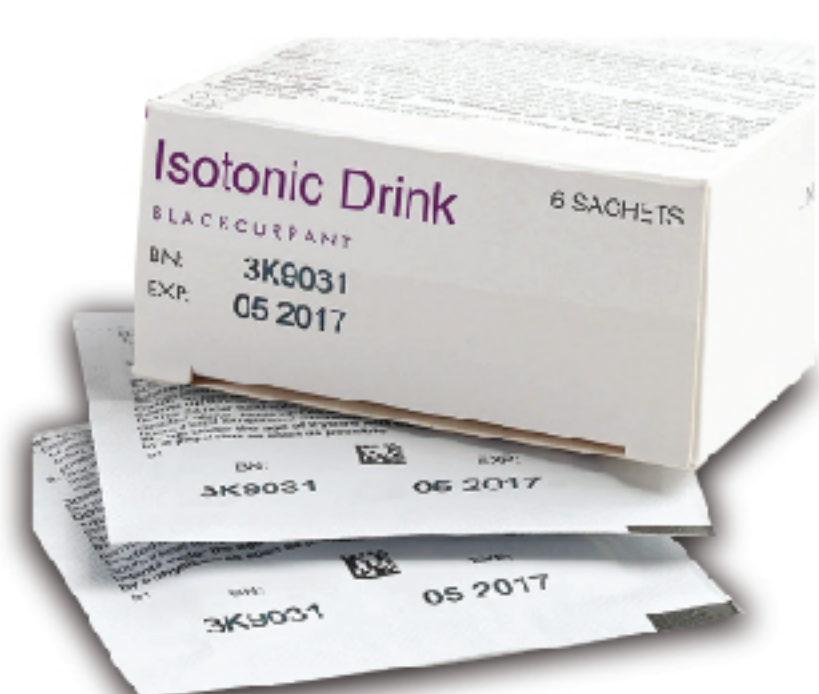

Main Data

- Print Head:
- 32mm , 300DPI

- Ribbon Size:
- W-33MM, L-600(Max)

- Print Area:
- Intermittent - 32mm*60mm
- Continuous - 32mm*100mm

- Air Supply:
- 6bar/90PSI(MAX)

Main Data

NS - 506

MULTILANE INK CODER

Applications:

This multihead printer used in multilane machines for printing batch no, date, lot number and other related information.

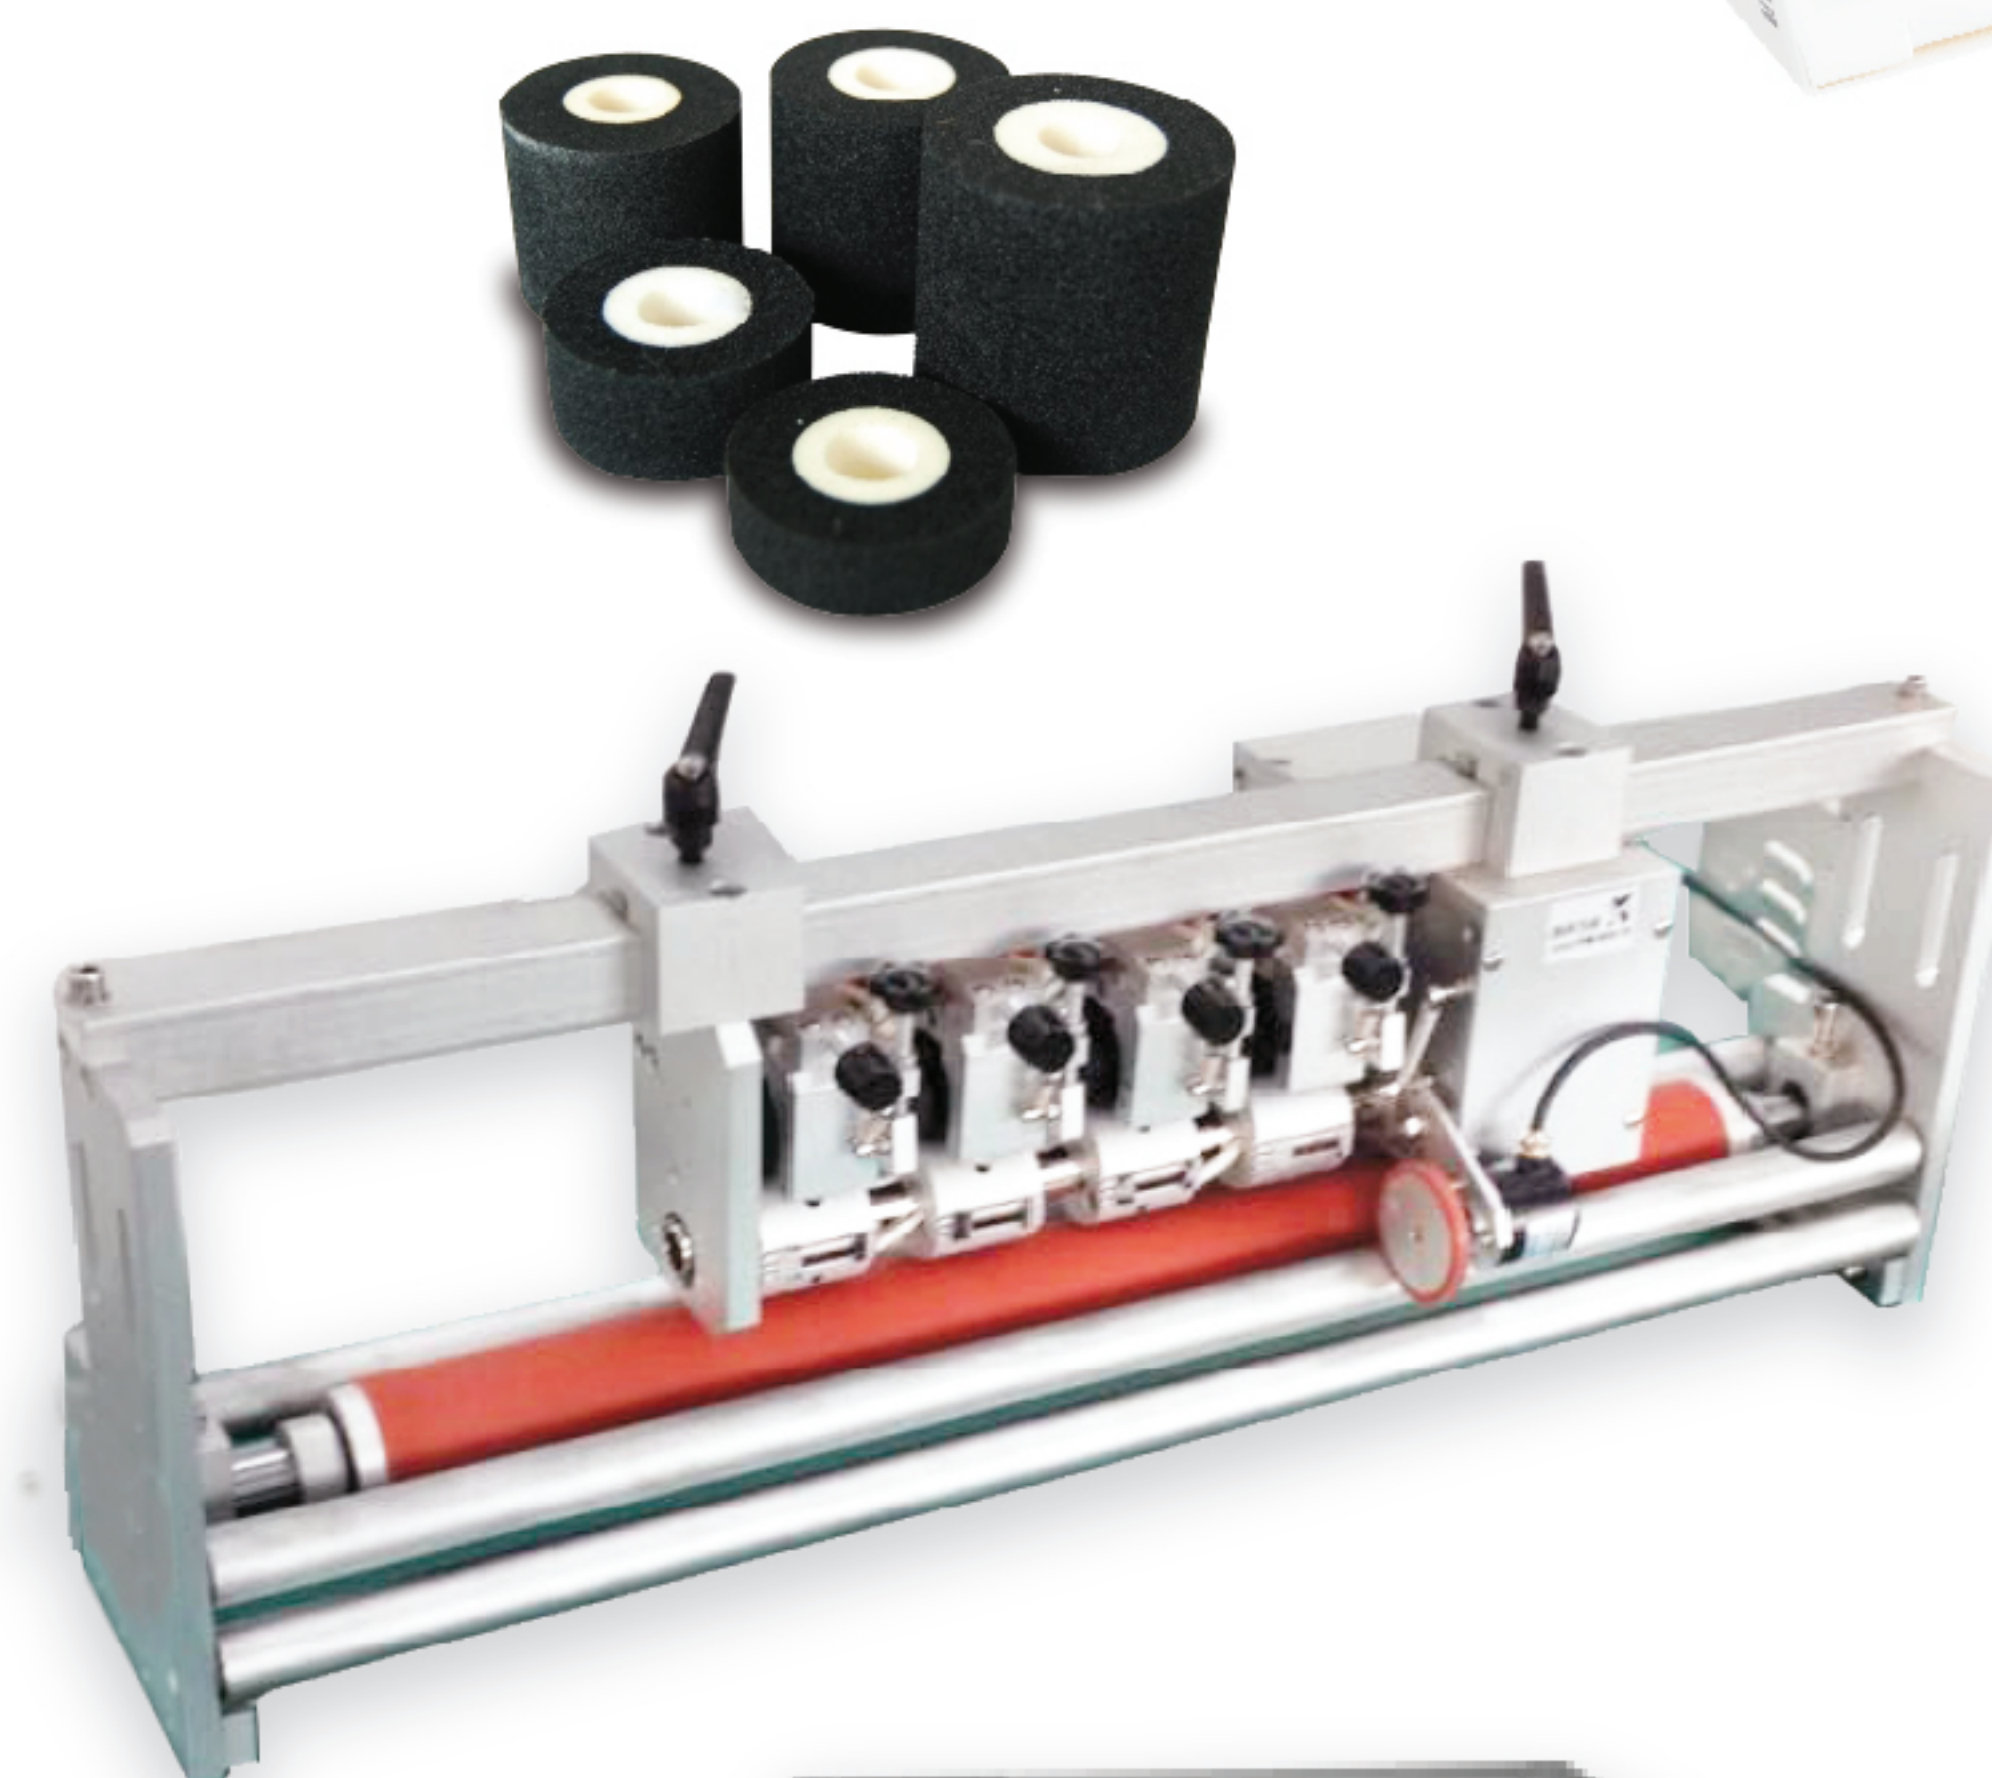

- Driver:
- Stepper Motor

- Power Supply:
- 220V/50hz

- Print Speed:
- 300 Times/min

- Font Size:
- 2 x 3.4 x 7.2 min

- Consumable:
- Ink Roll
